

Toolkit 1 - Worksheet 1a – Why Are Our Questions Important?

Humans ask a lot of questions.

The answers can change the world.

Here are some questions that people have asked.

Read each question, give one answer. The first one is done for you.

1. How can we travel on water? Make boats and ships
2. How can we travel fast?
3. How can we cure illnesses?
4. How can we keep warm and dry?

There are other questions which have changed the world we live in.

With a partner, think of as many as you can and write them down.
